

E C O SOLUTIONS DIVISION

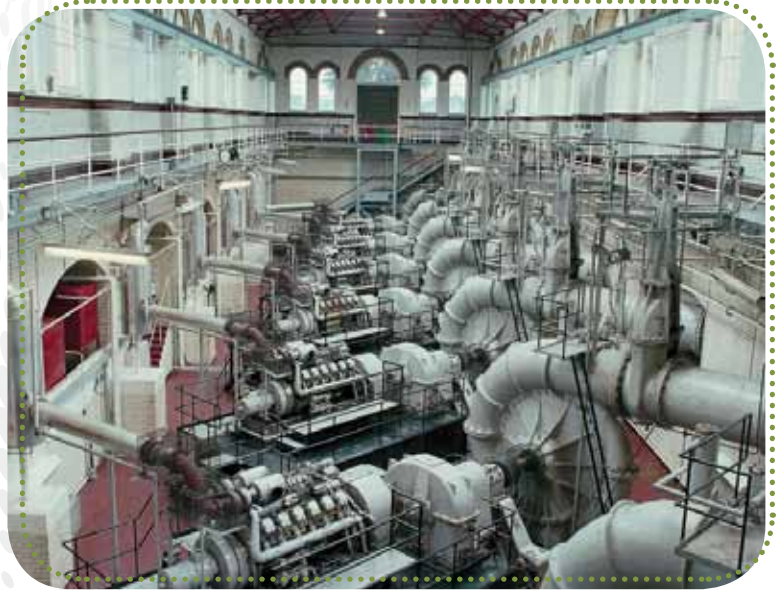

DOING THE RIGHT THING

As internal and external pressures increase for businesses to become more green and efficient in processes, Winkle has recognized the need to create a specialized team to help our customers achieve cost savings while reducing their energy consumption. The creation of a division devoted to providing customers with energy savings solutions is a logical step for Winkle Electric, whose mission is to be an integral part of our customers' success by matching our distinct competencies with their unique opportunities and challenges.

Make the right choice, for business and the environment, with Winkle's Eco Solutions Division.

IMPROVING ENERGY EFFICIENCY

Improving energy efficiency is the first and most important step toward achieving sustainability. Energy efficiency helps control rising energy costs, reduces environmental footprints and increases the value and competitiveness of your business. Facilities managers, building owners and operations executives are implementing cost savings methods that drive competitiveness and produce positive cash flow.

“Winkle Electric has been staying ahead of emerging technologies and product/service offerings for over 65 years, our evolution into energy efficiency products and services is a natural progression. Our focus is very simple, to assist our customers in being successful. From simple lighting retrofits, to complex turnkey projects, our Eco Solutions Division will provide customized innovative solutions for each and every partner.”

» *Robert Conger, Winkle Vice President of Sales*

WINKLE ELECTRIC COMPANY, INC.

A STEP ABOVE

Our goal is to offer ecological solutions that enhance customers' business and bottom line by being on the leading edge of energy efficient technologies that solve today's energy issues.

We're going a step above the competition, offering education, consultation and cost effective solutions to improve profitability. By incorporating Winkle's already established high-tech, consultative approach, we're confident in our abilities to consistently and efficiently reduce energy consumption for our customers.

ECO SOLUTIONS DIVISION

THE TOTAL PACKAGE

Winkle's Eco Solutions Division is complemented by our four other divisions, Electrical Supply, High-Tech Automation, Integrated Services and Custom Control. Together, our five divisions stand ready to recommend and implement the solutions you need, just when you need them most.

ECO SOLUTIONS AT-A-GLANCE

Energy saving solutions include:

- Lighting Upgrades & Controls
- Energy Audits
- HVAC Motor Controls
- Energy Efficiency with Variable Frequency Drives
- Power Distribution
- Recycling Services

...on the leading edge of energy efficient technologies that solve today's energy issues.

The U.S. Green Building Council® is committed to a prosperous and sustainable future for our nation through cost-efficient and energy-saving green buildings. With a community comprising of 78 local affiliates, more than 20,000 member companies and organizations, and more than 140,000 LEED® Professionals™, USGBC® is the driving force of an industry that is projected to contribute \$554 billion to the U.S. gross domestic product from 2009-2013. USGBC leads an unlikely diverse constituency of builders and environmentalists, corporations and nonprofit organizations, elected officials and concerned citizens, and teachers and students. USGBC is the developer of the LEED green building certification program and the convener of the Greenbuild® International Conference & Expo.
