

HIGH-TECH AUTOMATION DIVISION

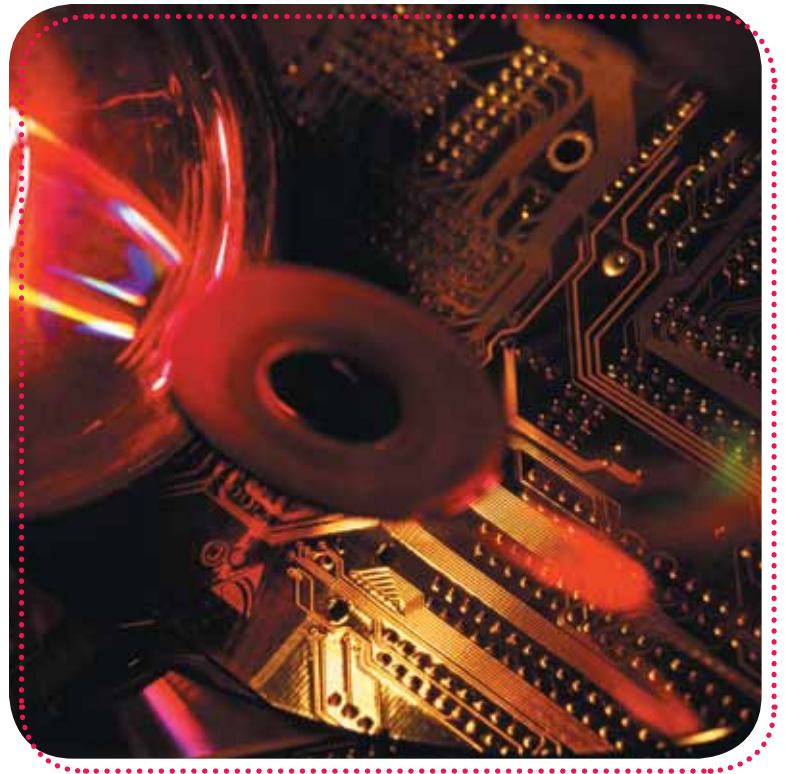

HIGH TRUST AND HIGH TECH

If you depend on technology to keep your organization competitive, you can depend on us. Winkle Electric's High-Tech Automation Division employs 6 full-time product specialists offering a variety of solutions to improve both productivity and quality.

We take a systematic approach to automation, putting products and people together to produce results.

STATE-OF-THE-ART SOLUTIONS

We understand that success is often dependent on finding innovative ways to gain a competitive edge. And whether that edge comes from lowering manufacturing costs, improving overall equipment efficiency (OEE) or optimizing automation solutions, our High-Tech Automation Division professionals can help. We represent the most respected names in the automation industry. But that's just the beginning—our people take the time to understand the specific needs of your application, ensuring that your automation costs are investments, not just expenses.

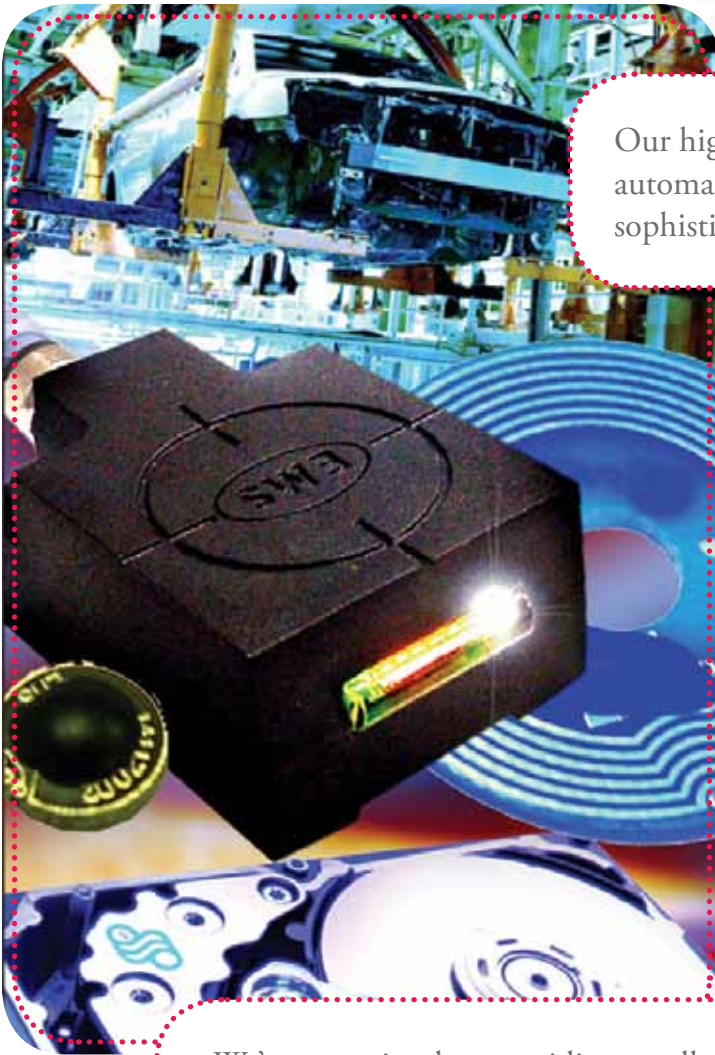

“Winkle’s product specialists have enabled us to remain competitive by analyzing our customers’ control requirements and applying cost-effective, yet leading-edge control technologies to our projects. Winkle’s on-site Control Systems laboratory enables us to simulate control strategies and solve problems quickly.”

Our highly trained technicians analyze the entire automation process and provide the leanest yet most sophisticated systems available.

THE AUTOMATION EDGE

Automation is no longer part of our vision for the future. It's an essential ingredient in our present. As American industry struggles to compete with foreign competition, high-tech automation has become an integral money-saving investment.

Our highly trained technicians analyze the entire automation process and provide the leanest yet most sophisticated systems available. They are trained to provide customers with the tools they need to survive and thrive in today's business climate.

At Winkle Electric, we're committed to providing an all-too-rare combination of tomorrow's technology with yesterday's values and service, while preserving our reputation as the region's leader in automation.

We're committed to providing an all-too-rare combination of tomorrow's technology with yesterday's values and service.

THE TOTAL PACKAGE

Winkle Electric's High-Tech Automation Division is complemented by our three other divisions, Electrical Supply, Custom Controls and Integrated Services. Together, our four divisions stand ready to recommend and implement the solutions you need, just when you need them most.
